

Data Protection Policy for Monitoring EOSC Readiness in the EOSC Observatory

V1.0 on 01 March 2022

Personal Data Policy

OpenAIRE and Technopolis Group Belgium (henceforth the 'Data Controllers') consider the protection and security of Personal Data as a high priority and responsibility towards the Open Science community. This Data Protection Policy is in place to protect the Personal Data of (designated representatives of) the members of the EOSC Steering Board using the EOSC Observatory [<https://eoscobservatory.eosc-portal.eu>]. The Data Controllers recognise the right to the protection of Personal Data and ensure the application of the current legal framework (in particular Regulation 2016/679 and the respective national laws).

The EOSC Observatory is being developed by OpenAIRE and Technopolis Group Belgium as an activity in the EOSC Future project [<https://cordis.europa.eu/project/id/101017536>]. As a user of the EOSC Observatory and our services, you must be aware that your Personal Data is collected and maintained by the Data Controllers for a certain period of time and for specified, explicit, and legitimate purposes. Personal Data shall be treated fairly and in a transparent manner in accordance with the applicable legal framework and in such a way as to guarantee their security. Information regarding the processing of such data may be found in the respective sections below.

Data Controllers

The Data Controllers for the purpose of the operation of the EOSC Observatory and the provision of the services listed below are as follows:

OpenAIRE AMKE

Artemidos 6

1512 Maroussi, Greece

Technopolis Group Belgium

Avenue de Tervuren 188a

1150 Brussels, Belgium

OpenAIRE and Technopolis Group Belgium are jointly responsible for the design and direction of the processing of the Personal Data and non-personal data as well the technical collection, presentation, transfer, and storage of the Personal Data and non-personal data in the EOSC Observatory.

The Data Controllers may modify this policy to achieve a better protection of Personal Data by announcing such modifications via the EOSC Observatory, by demarcating and dating the versions, and by keeping an archive of previous Data Protection Policies on the EOSC Observatory website.

By navigating and using the EOSC Observatory, visitors/users acknowledge that they have read, understood, and unconditionally accepted this Data Protection Policy.

For further information, you may contact the Data Protection Officers of the Data Controllers by sending an e-mail to <dpo@openaire.eu> or <info.be@technopolis-group.com>.

Data Processor

All data collected by the Data Controllers are processed in terms of storage space and preservation in accordance with this Data Protection Policy and under the instructions of the Data Controllers by:

Academic Computer Centre Cyfronet
AGH University of Science and Technology
Nawojki 11
30-950 Kraków, Poland

Purpose of Personal Data Processing

The processing of Personal Data means any operation or set of operations that is performed on Personal Data or on sets of Personal Data, whether or not by automated means, including collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure, or destruction of the Personal Data.

The Personal Data identified in the following section are processed for the purpose of collecting, analysing, and presenting data on the monitoring of EOSC readiness of Member States and Associated Countries via the EOSC Observatory. The monitoring data will be collected via surveys that are completed internally in the EOSC Observatory by (designated representatives of) the members of the EOSC Steering Board. This non-personal monitoring data will be shared via the EOSC Observatory.

Personal Data

'Personal Data' means any information relating to an identified or identifiable natural person. An identifiable natural person (known as the 'Data Subject') is one who can be identified, directly or indirectly, in particular by reference to an identifier, including a name, identification number, location data, online identifier (such as an IP or e-mail address), or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural, or social identity of that natural person.

We obtain the following Personal Data from the EOSC Core Infrastructure Proxy

[<https://wiki.eoscfuture.eu/display/PUBLIC/EOSC+Core+Infrastructure+Proxy+-+Policy+for+connecting+services>] when a user logs in to the EOSC Observatory via the EOSC Portal AAI:

- First name

- Last name
- Full name
- Email address
- EOSC AAI unique identifier

We also associate the following Personal Data that have been shared in agreement with the Data Controllers by the EOSC Steering Board with users of the EOSC Observatory:

- Status as member of the EOSC Steering Board
- Name of Member State or Associated Country

Recipients of the Personal Data

Designated OpenAIRE and Technopolis Group Belgium administrators will have access to the Personal Data in order to perform necessary activities for the processing of the collected monitoring data. A log will be kept and will be made accessible if required by law or contract upon request.

Personal Data may also be shared with (designated representatives of) the members of the EOSC Steering Board for the processing and validation of the collected monitoring data. The Data Controllers will in this case transfer the relevant Personal Data and enter into a Data Controller to Controller relationship with the EOSC Steering Board. Due diligence will be performed to ensure that the EOSC Steering Board has adequate Personal Data policies in place before transferring the Personal Data. A log will be kept and will be made accessible if required by law or contract upon request.

Personal Data Retention

All Personal Data obtained for the purposes of the monitoring of EOSC readiness via the EOSC Observatory will be kept for a period of six months after completion of the EOSC Future project.

Personal Data Security

To protect the privacy of users of the EOSC Observatory, we employ data security measures to prevent the loss, misuse, unauthorised access, and disclosure of collected Personal Data.

Access to your Personal Data is restricted to authorised representatives of OpenAIRE, Technopolis Group Belgium, Cyfronet, and the EOSC Steering Board who have a duty of confidentiality.

Your Rights

As far as the protection of your Personal Data is concerned, you have the following rights:

- The right of access to your Personal Data
- The right of correction of your Personal Data
- The right of remission of your Personal Data
- The right to limit processing of your Personal Data

- The right of portability of your Personal Data
- The right to object to the processing of your Personal Data.

To exercise your rights, you may contact the Data Protection Officers of OpenAIRE or Technopolis Group Belgium by sending an e-mail to <dpo@openaire.eu> or <info.be@technopolis-group.com>.

Right of Termination

If a user believes that the protection of their Personal Data is at risk or that the Data Controllers have not adequately responded, then the user may contact relevant Personal Data Protection Authorities:

Hellenic Data Protection Authority

Kifissias 1-3

PC 115 23, Athens, Greece

Telephone: +302106475600

E-mail: <contact@dpa.gr>

Website: [<https://www.dpa.gr/en>]

Gegevensbeschermingsautoriteit

Drukpersstraat 35,

1000 Brussel, Belgium

Telephone: +3222744800

Email: <contact@apd-gba.be>

Website: [<https://www.gegevensbeschermingsautoriteit.be>]

Privacy Policy Version

This is Version 1.0 of this Privacy Policy on 01 March 2022.
